

# New scam to install photovoltaic panels

Are 'free solar panels' a scam?

Oops! We'll be right back. Sorry, something went wrong. Rest assured, we are working hard to fix the problem as soon as possible. In the meantime, try refreshing this page or visiting our homepage. If you've received an offer for 'free solar panels,' it could be a scam.

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .

Are free solar panels a good idea?

The Facebook post promising free solar panels links to another site with a disclaimer: 'No Cost' means that you may not be required to put any money down at the time of installation if you qualify. Solar is not free, but it usually saves homeowners thousands of dollars more than the initial investment.

What if a solar installation is not a good idea?

Unscrupulous solar companies may employ aggressive or dishonest sales tactics to close deals quickly, especially if the proposed solar installation isn't in your best interest. These tactics can include: Be cautious of any salesperson who uses these tactics or seems unwilling to provide detailed information about the proposed solar system.

Can you get scammed if your roof panels don't work?

In the worst cases, homeowners have been left making payments on overpriced systems that don't work, with little to no support from the installation company that put the panels on their roof. To avoid getting scammed, you need to know what to look out for and when to walk away.

Are solar panels a risk to roof integrity?

Solar panels, typically mounted on rooftops to maximize sunlight exposure, are often misconceived as a risk to roof integrity. However, there's minimal risk of damage with a professional and experienced installer. Qualified solar companies assess your roof's condition before installation and use expert techniques to prevent leaks and other damage.
