

Photovoltaic inverter market landscape

What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

How big is the residential solar PV inverter market?

The residential solar PV inverter market size crossed USD 6.95 billion in 2023 and is poised to grow at over 10.9% CAGR from 2024 to 2032, driven by increasing global energy demand, along with significant investments in rooftop solar deployment.

How will the North America solar PV inverter market grow?

North America solar PV inverter market is also expected to grow at a fast pace during the forecast period as the United States is a significant market for various types of PV inverters. The region's growth is further driven by favourable government incentives, increasing awareness of clean energy, and declining solar panel costs.

Why is solar PV inverter market development important?

Presently, solar PV inverters majorly find applications in the utilities and industrial sectors. Rising solar PV adoption, driven by improving cost competitiveness and energy transition policies, has been a significant factor for driving solar PV inverter market development.

How is the solar PV inverter market segmented?

By inverter type, the market is segmented into central inverters, string inverters, and micro-inverters. By application, the market is segmented into residential, commercial and industrial, and utility-scale. The report also covers the market size and forecasts for solar PV inverters across major regions.

Which region has the largest solar PV inverter market share?

Asia Pacific is expected to account for the largest solar PV inverter market share, driven by the growing demand for renewable energy and the need for energy independence. The region is home to many developing countries, including China and India, where there is considerable growth in solar photovoltaic (PV) installations.

Solar PV Inverters Market size was valued at \$ 9.9 Bn in 2023 & is projected to reach \$ 17.59 Bn by 2031, growing at a CAGR of 7.45%. ... 10 GLOBAL SOLAR PV INVERTERS MARKET COMPETITIVE LANDSCAPE 10.1 Overview 10.2 ...
