

Ranking of Japanese balcony photovoltaic panel manufacturers

Which is the best PV module brand in Japan?

The Latest Ranking of Top PV Module Brands in Japan has Been Released, and JinkoSolar has retained the Top Spot as No.1 Brand. Recently, PVeye media, an authoritative research agency in Japan market, released the report on Japan's 2020 PV module shipments.

Is Japan a good country to invest in solar panels?

Back in 2010 Japan was riding high in the solar industry as Japanese solar companies were the top solar panel producers in the world. Japan was expected to stay in the number one position for the foreseeable future as the country led the pack in innovation as well as panel quality.

Can Japan compete with Chinese solar panels?

IMS Research has noted that the rise of low cost Chinese solar panels has taken away from Japan's market share in the PV industry. Though Japan may have trouble competing on cost with Chinese solar companies, it could have better luck in competing against more expensive high efficiency solar panels.

Should I get solar panels in Japan?

However, if you are on the fence about whether or not you want to get solar panels, here is a breakdown of the pros and cons of solar panels, particularly in Japan. Akiya houses in Tokyo will most likely require solar panels as well, but it's best to see what your local government say.

Is Japan a good market for PV modules?

The Japanese market is the litmus test for every company when it comes to product quality and brand influence. If we can win Japan market being recognized as the No.1 modules supplier, we can win the world". Recently, PVeye media, an authoritative research agency in Japan market, released the report on Japan's 2020 PV module shipments.

Why should you buy solar panels from Japanese manufacturers?

There are still good reasons to purchase panels from Japanese solar panel manufacturers, however. The main reason is that these companies are still making some of the best solar panels on the market. One of the main reasons they are so good at making solar panels is that they have been doing it for a long time.
