

# What can be placed in a 20cm locker

What should I put in my locker?

You could put heavier items such as textbooks on the bottom shelf of your locker, and lighter or smaller items such as pencils on the top. Items you need every day for class should be easily accessible and towards the middle/top of your locker. You could also divide your locker in half.

What size locker do I Need?

About the size of two pick-up loads, a 5-by-8 or 5-by 10' locker is the perfect option for students who are looking to share a storage space. They're also great for condo, apartment and small business owners who need to off-load furniture and other seasonal items. Use these units for things such as: Books and record storage (both vinyl and paper!)

How deep is a standard locker?

Standard lockers are 18 inches deep, which is the equivalent of around 46cm. This measurement does not tend to vary in Europe or Australia unless you have custom lockers made. In the US and Canada, some locker units are available with a depth of 12 or 15 inches, which is equal to 30 or 35cm.

What are Lockers made of?

They are generally made from sheet metal that has been painted and is narrow in shape, with individual height measurements that will vary depending on the number of tiers in the unit. Standard lockers are 18 inches deep and 6 feet high.

How do you store items in a locker door?

Utilize the inside of your locker door as additional storage space. Hang a magnetic organizer or pocket file to store important papers, small gadgets, or even your daily schedule. This way, you can easily access these items without taking up valuable space inside the locker itself.

How tall should a locker be?

The height of a locker is the most variable measurement. The height of an individual locker will depend on the number of tiers on the locker wall and how tall the wall is. For one-tier lockers, which are tall rectangular-shaped lockers, the typical height is 6 feet or 183cm.
