

# Where can I buy solar power generation

How do I get the best price for a solar system?

Tax incentives and flexible financing options ensure you get the best price for your solar system. Power your home with emissions-free, renewable energy directly from the sun. You may qualify for federal, state and local tax incentives that can help cut your installation costs.

Why should you buy a solar system?

Generate your own clean energy from the sun for free with solar. Add Powerwall to store your energy for use anytime you need it. Tax incentives and flexible financing options ensure you get the best price for your solar system. Power your home with emissions-free, renewable energy directly from the sun.

Should I buy or install a solar system?

Purchasing and installing a system that you fully own and maintain is no longer the only option if you want to go solar. Even if you rent your home or don't want to purchase a rooftop system, there are many programs will enable you to still benefit from solar electricity.

How do I buy green power?

You can purchase through a green power program offered by your local electricity provider or you can buy renewable energy certificates from online sellers. Your purchases increase the demand for renewables, so more will be built. How do I know that the green power I'm purchasing is really green?

How do I buy renewable power?

At least 50% of customers have the option to purchase renewable electricity directly from their power supplier, and everyone has the option of purchasing renewable energy certificates. Such power is sometimes referred to as "green power" or "clean power." In most states, you can buy clean power through one or more of the following programs:

How do I get solar power for my home?

Click here to access third-party certified community solar programs. Self Supply - Households can also provide their own green power by installing solar panels on their rooftop to power their homes or even a windmill on their property. Roof-top solar is the most popular form of residential self supply.
